Cost Build I — secretariat, broadcast, camp, media & selections

The eight largest line items, in descending order — each tied to a clear basis and control logic.

COST LINE / AMOUNT	BASIS OF ESTIMATE	WHY REQUIRED / CONTROL LOGIC
1 Secretariat & strategic planning ₦35.0m	Central coordination, admin, website & social oversight, digital-engagement & online-voting personnel.	State-side control room plus specialist delivery: coordination, stakeholder liaison, back-end contestant and audience support. One consolidated line.
2 National TV live broadcast ₦35.0m	Dedicated national live-broadcast package for the Grand Finale.	A distinct provision, separate from media, streaming and destination branding to avoid double-counting. National reach for the flagship night.
3 Bootcamp accommodation & feeding ₦32.0m	40 residents × ₦80,000 × 10 days.	Covers 31 finalists plus 9 resident personnel; subject to a negotiated hotel group rate.
4 Integrated media, advertising & streaming ₦24.0m	Digital, radio, print, press relations and live online streaming.	Statewide mobilisation, camp content, influencers and online-voting promotion. Excludes the separate national-TV line.
5 Ward + LGA Selections ₦15.0m	31 LGAs — controlled average allocation per LGA.	Local mobilisation, audition setup, judging support and movement using existing LGA structures.
6 Destination branding & profiles ₦15.0m	Fixed mobile content-production package.	Contestant profiles, tourism challenges, photography/video and Commission-owned year-round assets.
7 VIP hospitality & refreshments ₦12.0m	Provisional VIP/dignitary allowance for the Grand Finale.	Closes the hospitality gap and may be offset by premium table sales without double counting.
8 Finale venue & guest experience ₦12.0m	1,500-guest basis: venue, seating, protocol and ushers.	Ibom Convention Centre or ARISE Palm. Stage and technical scope are separately negotiated.

Cost Build II — production, logistics, selections, security & digital

The remaining six cost lines. National TV is now a funded line on the previous slide — no exclusion remains.

COST LINE / AMOUNT	BASIS OF ESTIMATE	WHY REQUIRED / CONTROL LOGIC
9 Stage, sound, LED & effects ₦10.0m	Controlled technical production package for the flagship finale.	Competitive procurement, locked scope, equipment schedule and reuse/rental discipline.
10 Contestant & crew logistics ₦10.0m	Fixed lean transport and operations allocation.	Pooled vehicles, fuel, transfers and route operations controlled through manifests and retirements.
11 Dedicated security & protocol ₦7.0m	Supplemental risk-based allocation for the travelling unit and finale.	Site-specific escort for activations, camp and festivals; not a duplicate of the State security vote.
12 Senatorial Selections ₦6.0m	Three zones — Eket, Ikot Ekpene and Uyo.	Regional showcases create destination content without replicating major-event cost in every LGA.
13 Show mgmt & rehearsals ₦5.0m	Fixed event-operations package.	Rehearsals, backstage, stage management, entertainment and live run-of-show.
14 Website / entry & voting platform ₦5.0m	Website infrastructure, entry portal, voting, payments, backend and reporting.	Kept separate from Secretariat personnel. Auditable voting and payment records create a direct IGR channel.

Funding first. Every line reconciled.

Sponsorship is applied before the Government ask; ticketing, table sales and voting remain additional upside.

Ticketing, tables and voting are additional upside.

GROSS PROGRAMME COST

₦245.3m

CONSERVATIVE GOVERNMENT ASK
